FYI – LMS Housekeeping,

Our FDEM LMS person in Tallahassee failed to inform FEMA that we were current on our plan. I noticed this last week when FEMA sent out a status report on the State's compliance. This is a letter from the new person stating we and the municipalities are current.

Hi David,

Attached is the FDEM letter formally approving the adoption of Sumter county's LMS by the jurisdictions listed. When I went back through Sumter county's files I discovered a couple of issues. First, FDEM had received resolutions from jurisdictions within Sumter, but had not forward them on to FEMA. Second, for those letters that had been forwarded on to FEMA and approved, FDEM had not sent the LMS Chair a letter notifying them of this. Third, there was an error on the one letter sent to the old LMS Chair about the adoption of the LMS plan by Center Hill. It had the incorrect expiration date for Sumter's LMS. I sent everything to FEMA that needed to be approved by them and then listed all the approved jurisdictions on the attached letter. Sumter is up-to-date with everything now! The attached letter and FEMA approvals are being sent to you by mail. I just wanted to attach the FDEM letter for you to see and give you a heads up.

Let me know if there is anything else you need.
